By searching the title, publisher, or authors of guide you in point of fact want, you can discover them rapidly. In the box, choose the search type, and then enter the keywords. You may use this feature by simply typing the keywords that you're looking for and clicking on one of the items that appear in the dropdown list.

If you're looking for books, articles, or other content, you can quickly navigate to a particular category. It searches only titles, inclusions and the index and it works by starting to search as you type and provide you options in a dynamic dropdown list. You may also use this feature to quickly find specific topics or keywords within your content.

In this new chapter, we included some of the material found in Chapter 12 in previous editions, so the new page is fully revised and updated. The material includes additional information and updates on the latest research and developments in the field.

Cardiac Arrest in Pregnancy | Circulation

We have included this section to provide additional information on the management of cardiac arrest in pregnant women. It covers topics such as diagnosis, treatment, and prevention, and highlights the importance of timely and effective interventions.

For more information, please refer to the full chapter in the Nelson Textbook of Pediatrics, 21st Edition.
