**Unborn** - Gaius Famius -
2013-01-27

In the future, Mothers have
legally achieved the natural
right to abort their offspring
up until the moment of
viability. An Unborn is not
considered legally viable until
the 18th anniversary of their
Entrance, or the day they left
their mother's body. Until the
moment of being Born, the
mother has complete and
100% Choice on whether or
not to abort her child. These
abortions are done by nursing
teams who use cattle thuds to
terminate the Unborn.
Summer dreams and longs for
the day when she will be
legally viable so that she will
no longer have to worry about
being aborted. This dystopian
future is shocking because it

reality, that it makes "1984"
seem like a bright utopian
spring day. Profoundly
disturbing! But the logical
extension of the pro-abortion,
euthanasia, medical
ethicists. Undeniably
shocking! But why should this
work of fiction be anymore
shocking than the slaughter of
babies that happens every day
in America? This book is
intended to be read by
everyone, pro-life or pro-
abortion. Some people will be
appalled at the future
described, and others will
welcome it as the natural
logical extension of their
beliefs. Whatever you believe,
this book will force you to
think about those beliefs. The
novel 1984 cannot hold a
candle to the terrifying, and
even more realistic near
future painted in Unborn.
Abortion ethicists have
advocated on a non-fictional
basis everything portrayed in
this book. It is only a matter
time before the Unborn
future becomes a reality. For
far too many children, it has
already become a reality. A
reality that ended for them
Parental abolitionist seeks to abolish the slaughter of babies, just as the 19th century abolitionist sought to abolish the evil institution of slavery. However, born out of the eugenics movement that sought to exterminate the black man since he could no longer be enslaved, the modern abortion movement is an evil institution far surpassing the evils of slavery. In the 19th century, Uncle Tom's Cabin opened the eyes of America to the need for the abolition of slavery and in the 21st century, Unborn will open the eyes of America to the need for the abolition of abortion. This book is the modern abolitionist's Uncle Tom's Cabin. Warning! This book is not intended for younger children. The book portrays fictionally a graphic and disturbing utopian future where abortion rights are absolute. Intended for teenagers, who are forced to confront today these horrible issues by a world gone mad, the graphic and disturbing nature of the logic of modern man is taken to it's inevitable conclusions.

Discretion Advised. Parents should read this book before allowing their children to read it.

**How to Fly Like an Eagle** - Reginald Canon - 2014-06-12
This book, entitled "How to Fly like an Eagle," is a motivational book written by the author in French, Spanish, and English to help people learn the techniques and to get the skills to help them to fly to the top like that bird of prey which is the eagle. In this book, the readers will learn how to overcome obstacles and to cultivate the fruit of persistence which is an essential factor in the process of transformation of desire into its monetary equivalent. The basis of persistence is the power of will. When this power and desire combine correctly, they form an irresistible combination, the perfect one to help you overcome your failures. There are four simple steps which lead to the habit of persistence. This does not require a large amount of intelligence or a special education, but time and minimal effort. The four steps backed by a burning desire to achieve it. 2- A definite plan, expressed in continuous action. 3- A closed mind to any negative influence (including negative suggestions of relatives, friends and others). 4- A harmonious agreement with one or more persons, able to lead someone to go forward with the plan and with the goal. These four steps are essential for success in all areas of life. These are the steps with which you can control your economic destiny. These are the steps that lead to freedom and independence of thought, that convert dreams into reality. These are the steps that lead to the domination of fear, discouragement and indifference. I do not know the situation you are facing currently, maybe you are in a wheelchair, or in a hospital bed and without any hope of survival, maybe you're on the verge of divorce, or you are unable to complete your schooling or university, or find a job. You can now be crawling like a snake or you...
learn how to overcome you from being able to fly like an eagle, but one thing is certain, regardless of your economic, family, health situation you can have a better life, develop your potential and fly as high as the eagle above any obstacles or constraints you are facing right now. Of course, this will be possible if you apply the principles to be taught in this book. I testify to you with all my heart that this book has the power to transform the lives of people from nothing to excellence, from the dust of the ground to the top of success. I promise you if you read it, and put the principles into practice, your life will be completely blessed!

Memoir American - Benjamin Hollander - 2013-04-28
The texts which comprise this small book - forms of essay, talk, dialogue - at one time saw themselves as individualists who went somewhere (to small press magazines) on their own. Now they are here, collected with the chance of going nowhere together. As it should be: since they represent the fate of language and translation in the memory of aliens living inside America - like a family going nowhere together, but at home. The philosopher Jacques Derrida and his family are part of this family in the dead letter office, and curiously they are named going nowhere together at home. Along the way, so are the poets Charles Reznikoff and William Carlos Williams and Emmanuel Hocquard and Juliette Valery and Charles Olson, as well as Horace's Odes in translation. You will find in this Memoir what it means for an alien to search for his family in a book outside the time of its writing. You will find him discovering that translation is a personal story and that poetry might not have a home without it. You will find him wondering: whose voices are these which we hear around us as we write, as Babel turns to rumor through the fact of translation, wherein a book is being made and remade from American to French and back again? You will find him

Follow this alien Being's trajectory: he is not of America but grows up in it. He publishes a book in French translation before it appears in the American English original. He becomes native to a writing whose eloquence is always in question, at times because it is passive, at other times because it is unpronounceable. Who, over time, finds his Memoir? In the dead letter office, we do. We find someone somewhat like ourselves, who uses language and translation as if these were a poet's gifts in the making of history, a history which is foreign yet integral to his homeland. We find someone who uses it to return to his own people and place, so that he can "only stand more/revealed." We find someone who will act the new basis for his identity - the into Being must be premised on his existence in another world.

The Birth of Cinema - Brett Robbins - 2017-01-07
In his Poetics, the cornerstone of narratology, Aristotle establishes plot as the most, and spectacle as the least, important of the six elements of tragedy. This initiates a bias for time and against space that continues to shape the narratological agenda to the present day. In the only book-length treatment of narrative space in Homer to date, Brigitte Hellwig reduces the wealth of spatial detail in the Iliad and Odyssey to a finite number of places and charts their trajectory throughout each respective epic. As such, she applies to space the structuralist methodology typically devoted to time, extracting from it as hypothetical temporality that subordinates experience to exegesis and disregards all but those spatial phenomena that survive the process of paraphrase. In his Poetics, the cornerstone dimension of narrative as well, within which actions are conveyed to the audience in real time before they are abstracted into story-events. In this book, I offer a narratological reading of Homer's Iliad from the standpoint of space rather than, the usual emphasis, time. I adapt Meyer Schapiro's conception of the picture frame as "a finding and focusing device placed between the observer and the image" to the dynamic medium of epic narrative, and establish the manipulation of frames as the basis for a poetics of narrative engagement. I demonstrate how Homer employs four cinematic devices in the Iliad-decomposition, intercutting, meta-audience, and vignette-to achieve montage-like control over his audience's attention and to reveal a semantic component of the epic that manifests itself exclusively within narrative space.
