Death of a Real Estate Salesman - Jarred Kessler - 2017-05-26
Ever wonder what a realtor does to deserve a disproportionately expensive 4%-6% commission on the sale of your home? They claim to offer unlimited exposure and transaction expertise and to act as an irreplaceable mediator in the negotiation process. In reality, what they provide is little more than a concierge tour service to show your home, and is that really worth $20,000 on the sale of a $400,000 home? In Death of the Real Estate Salesman, Jarred Kessler describes how advances in technology have rendered the traditional role of the real estate agent meaningless. He describes how emerging Internet-based tools will enable homeowners and prospective buyers to find each other with zero commitment, zero uncertainty, and zero realtor involvement. Death and Religion in a Changing World - Kathleen Garces-Foley - 2014-12-18
This comprehensive study of the intersection of death and religion offers a unique look at how religious people approach death in the twenty-first century. Previous scholarship has largely focused on traditional beliefs and paid little attention to how religious traditions evolve in relation to their changing social context. Employing a sociological approach, "Death and Religion in a Changing World" describes how people from a wide variety of faiths draw on and adapt traditional beliefs and practices as they deal with death in modern societies. The book includes coverage of newly emerging social and religious phenomena that are only just beginning to be analyzed by religion scholars, such as public shrines, the role of the media, spiritual bereavement groups, and the use of the Internet in death practices.

**Homer's Traditional Art** - John Miles Foley - 1999-07-09

In recent decades, the evidence for an oral epic tradition in ancient Greece has grown enormously along with our ever-increasing awareness of worldwide oral traditions. John Foley here examines the artistic implications that oral tradition holds for the understanding of the Iliad and Odyssey in order to establish a context for their original performance and modern-day reception. In Homer's Traditional Art, Foley addresses three crucially interlocking areas that lead us to a fuller appreciation of the Homeric poems. He first explores the reality of Homer as their actual author, examining historical and comparative evidence to propose that "Homer" is a legendary and anthropomorphic figure rather than a real-life author. He next presents the resonant language bristling with idiomatic implication. Finally, he looks at Homer's overall artistic achievement, showing that it is best evaluated via a poetics aimed specifically at works that emerge from oral tradition. Along the way, Foley offers new perspectives on such topics as characterization and personal interaction in the epics, the nature of Penelope's heroism, the implications of feasting and lament, and the problematic ending of the Odyssey. His comparative references to the South Slavic oral epic open up new vistas on Homer's language, narrative patterning, and identity. Homer's Traditional Art represents a disentangling of the interwoven strands of orality, textuality, and verbal art. It shows how we can learn to appreciate how Homer's art succeeds not in spite of the oral tradition in which it was composed but rather through its unique agency.

How has Islamic State been able to muster support far beyond its initial constituency in the Arab world and attract tens of thousands of foreign volunteers, including converts to Islam, and seemingly countless supporters online? In this compelling intervention into the debate about Islamic State's origins and future prospects, the renowned French political scientist, Olivier Roy, argues that while terrorism and jihadism are familiar phenomena, the group's deliberate pursuit of death has produced a new kind of radical violence. He places IS in the context of other radical millenialist groups such as China's Red Guards, Cambodia's Khmer Rouge, and Uganda's Lord's Resistance Army. In doing so, he shows that violence, not religious fundamentalism, is the central thread connecting young people who are drawn to radical groups. Seneca in Performance
- George W. M. Harrison - 2000-12-31
The plays of Seneca the Younger, minister and philosopher under Nero, are today increasingly studied, appreciated and performed. Here, in twelve new papers from a distinguished international cast, scholars explore established questions, such as whether the plays were written for the stage, and newer topics such as the playwright's subtleties of characterisation, his relation to contemporary Roman spectacle and art - and the problems arising in translating him to modern text or stage.

Henry Hart establishes the connection between Robert Lowell - one of the most important American poets of the last fifty years - and one of sublime, a prominent tradition in literature, which traces journeys beyond ordinary language and behavior into exalted states. Lowell's casual interest in the sublime, which eventually became an obsession, dominated his poetry. By searching archives and manuscript collections that take us back to Lowell's beginnings at St. Mark's, Harvard, and Kenyon, the author uncovers early and telling instances of the poet's interest in the poetics of sublimity. Hart illuminates the complexities of this poet's imagination in original ways, connecting Lowell firmly to the tradition of American Romanticism. He provides insights into Lowell's poems, especially the lesser-known works and discerns an allegorical pattern throughout the poetry that involves two interrelated elements: battles against patriarchal gods and failed, often demonic quests for transcendent ideals. individuals the space to choose among plausible is a failure to establish consensus on the definition of death and the criteria by which the moment of death is determined. This creates confusion and disagreement not only among medical, legal, and insurance professionals but also within families faced with difficult decisions concerning their loved ones. Distinguished bioethicists Robert M. Veatch and Lainie F. Ross argue that the definition of death is not a scientific question but a social one rooted in religious, philosophical, and social beliefs. Drawing on history and recent court cases, the authors detail three potential definitions of death — the whole-brain concept; the circulatory, or somatic, concept; and the higher-brain concept. Because no one definition of death commands majority support, it creates a major public policy problem. The authors cede that society needs a default definition to proceed in certain cases, like those involving organ transplantation. But they also argue the decision-making process must give definitions of death according to personal beliefs. Taken in part from the authors' latest edition of their groundbreaking work on transplantation ethics, Defining Death is an indispensable guide for professionals in medicine, law, insurance, public policy, theology, and philosophy as well as lay people trying to decide when they want to be treated as dead.

Love Faith Death - Tara Shah - 2014-09-29
Cancer sucks, death sucks even more. But we humans don’t have the power to stop either of them from messing with our lives. They enter our lives whenever and wherever they choose to. Cancer is so common that each one of us have known someone who has dealt with the disease; some of us have lost a loved one to cancer. Common does not always mean simple, and it also does not mean we know everything about it.
The diagnosis of cancer, regardless of the disease’s curability, is almost always nerve-wracking, even for healthcare providers like the main character of this book who is a veteran nurse. This book is written in first person; the subject is a middle aged woman who had been separated from her boyfriend some thirty years ago and then after three decades when she searches for an oncologist for treatment of an aggressive cancer that she was recently diagnosed, she finds her ex-boyfriend’s name and decides to see him. That brings back the memory of their past together, and she starts going though her old diary she had written some thirty years in the past. Part of the story is set in Nepal (from the diary) and the other part is set in the USA (this takes place after her cancer diagnosis). The main character of the story was born with ‘Manglik’ cosmic influencer, meaning that the planet Mars “mangal Graha” was in such position in the solar system at the time of her birth that it would have strong negative effect on her husband if she married a man who was non-Manlik (a person born at the time when the planet Mars was not in such position.) What happens next changes the lives of the main characters.

Throughout history Christians have prayed for the dead--both for continual growth of the faithful and for their advancement from purgatory, though not for the deliverance of the unsaved from hell. This book defends all three kinds of prayer. It challenges Protestants, who seldom pray for the dead, to begin doing so--and Roman Catholics and Eastern Orthodox, who pray only for the Christian dead, to include the unsaved as well. James Gould addresses the biblical credentials of prayer for the dead and provides a historical overview of such prayers from ancient Christianity to the current practice of the three main branches of the church. The argument, while revisionary in some respects, is orthodox, ecumenical, and integrative, engaging a range of academic disciplines so as to be biblically accurate, historically informed, and philosophically reasoned.

**Blind Joe Death's America** - George Henderson - 2021-03-19
For over sixty years, American guitarist John Fahey (1939–2001) has been a storied figure, first within the folk and blues revival of the long 1960s, later for fans of alternative music. Mythologizing himself as Blind Joe Death, Fahey crudely parodied white middle-class fascination with African American blues, including his own. In this book, George Henderson mines Fahey's parallel careers as essayist, notorious liner note stylist, musicologist, and fabulist for the first time. These vocations, inspired originally by Cold War educators' injunction to creatively express rather than suppress feelings, took utterly idiosyncratic and prescient turns. Fahey voraciously consumed ideas: in the classroom, the counterculture, the civil rights struggle, the new left; through his study of philosophy, folklore, African American blues; and through his experience with psychoanalysis and southern paternalism. From these, he produced a profoundly and unexpectedly refracted vision of America. To read Fahey is to vicariously experience devastating critical energies and self-soothing uncertainty, passions emerging from a singular location—the place where lone, white rebel sentiment must regard the rebellion of others. Henderson shows the nuance, contradictions, and sometimes brilliance of Fahey's words that, though they were never sung to a tune, accompanied his music.

Blind Joe Death's America - George Henderson - 2021-03-19
For over sixty years, American guitarist John Fahey (1939–2001) has been a storied figure, first within the folk and blues revival of the long 1960s, later for fans of alternative music. Mythologizing himself as Blind Joe Death, Fahey crudely parodied white middle-class fascination with African American blues, including his own. In this book, George Henderson mines Fahey's parallel careers as essayist, notorious liner note stylist, musicologist, and fabulist for the first time. These vocations, inspired originally by Cold War educators' injunction to creatively express
rather than suppress feelings, took utterly idiosyncratic and prescient turns. Fahey voraciously consumed ideas: in the classroom, the counterculture, the civil rights struggle, the new left; through his study of philosophy, folklore, African American blues; and through his experience with psychoanalysis and southern paternalism. From these, he produced a profoundly and unexpectedly refracted vision of America. To read Fahey is to vicariously experience devastating critical energies and self-soothing uncertainty, passions emerging from a singular location—the place where lone, white rebel sentiment must regard the rebellion of others. The Case for the Real Jesus Student Edition -
Lee Strobel - 2009-08-01
There's proof a man named Jesus of Nazareth
once walked the earth, but opinions on exactly
who he was can vary widely. Was he really the
Son of God, or was he a nice guy who did some
positive things on earth, or was he possibly an
unstable man? And how can you know for sure
what is true and what is false when it comes to
what you've read or been told? Lee Strobel
decided to investigate the real, historical Jesus
and gather irrefutable evidence on everything
connected to him so you can discover the biblical
truth for yourself. A great prophet. A rebel. The
one the Bible has proclaimed all along? The Case existed at all. All of these phrases describe different people’s views of Jesus, and various ancient documents have been discovered and various books have been written by scholars that seem to support each version. Not to mention all the arguments that say the Bible can’t be trusted as a reliable source of information on Jesus. So what are you supposed to believe—and why? Lee Strobel wanted the provable, undeniable truth, so he decided to return to the investigation he began in The Case for Christ and explore a variety of new angles to find out once and for all who the real Jesus was. Inside are interviews with numerous biblical scholars and once-zealous doubters about the most common arguments against Jesus, discussions of how reliable Scripture really is, examinations of unearthed ancient texts that appear to counter the gospels, and the evidence that shows who Jesus really was and continues to be in our world. Terrie and Doug Oxtal gave their lives to a dream. After over 35 years of marriage the result of their devotion to four children and each other, life was perfect until the day they left the hospital with only their youngest son Andrew's jacket. The unspeakable grief that took over their lives is captured in letters written to Andrew where the love spills on to every page. The journey is there, the love is there, the sense of loss is there between the lines of shock and pain, with a true understanding of compassion. The Oxtal family knows Andrew has gone home, and they live with him in their hearts, until they meet again. For those who have suffered the loss of a child, this mother's letters will take you to a place so familiar they won't make you feel alone. For those who have not lost a child, this book will take you to a place where love is all that matters.

**The Traditional African Concept of God and the Christian Concept of God** - Peter Chiehiụra Uzor - 2004

This book is motivated by the positive view of the
basic agreement between the understanding of the Vatican Council II (cf. NA 2a), a revolutionary view considered from the official teaching of the tradition of the Church up till then, and much more in such a central issue as the belief in God. This book aims at initiating a healthy interaction between the Christian understanding of God and the understanding of God in the traditional religion of the Igbo people of West Africa. In approaching this task this special study pursues some major aims. In the first place it engages itself in the clarification of some basic issues: Are the religious experiences which are phenomenologically found in all religions including the Igbo religion only mere human fabrications or do they originate from a revelation of God? Secondly, this publication working with the innovative analysis of the theophoral personal names provides some profound factual information about the concrete contents of the Igbo religion on God. Thirdly, the author tries to find out whether there could be a God in Igbo religion and the biblical revelation. In this work the fundamental agreement is found in the conviction that God in traditional Igbo religion, Chukwu and the God of the Bible is the God of life. The purpose of this book therefore, is to bring back the question of God to the centre of existential Christian life: it is to make the theme of God the motivation and criterion for the whole Christian life and spirituality - both individually and communally. The theme of the God of life introduces God into life and connects the problems and questions of men and women of today to the theme of God.

None of Us Are Getting Out of Here Alive - Carol Simpson - 2015-03-31
Humanity is on the threshold of recognizing the fundamental error in its view on life and death. Both death as well as active life is necessary to the vital formation of a larger more essential whole. Now, with clear, pragmatic ideas, applying an analysis of the sociology of knowledge and change as it pertains to matters of life and death, Carol Simpson focuses on ways we can step outside death's traditional frameworks and limitations. She discusses death and topics related to death, such as birth, aging, the elderly and war, examining cultural differences and attitudes. She offers varying perspectives including the Buddhist view, drawing sophisticated and compelling implications and conclusions. Applying the lenses
of eight key contemporary social scientists: Edgar Morin, Kenneth Gergen, Edward Stewart and Milton Bennett, Mary Catherine Bateson, Edith Doyle McCarthy, Philip Slater, and Piotr Sztompka, she adds the perspective of Buddhism's Lotus Sutra as posited by Shakyamuni, Nichiren, Tsunesaburo Makiguchi, Josei Toda and contemporary Buddhist philosopher, peacebuilder, educator and poet, Daisaku Ikeda. Simpson concludes that to construct a more humanistic and sustainable view of life, it is first of all crucial to establish a culture which correctly positions death in its larger living context and which assigns as its essential component an awareness of the all encompassing eternity of life. Carol Simpson, educator of forty years, with BAs in French and Art, Masters in French and Creative Arts Interdisciplinary Studies and teaching credentials in French, Art, English and Dance, is a Transformative Studies doctoral candidate at the California Institute of Integral Studies and currently conducting research to shed contemporary understandings about the transformative capacity of ordinary people to act in humanistic capacities as global citizens. A recipient of numerous awards, including the 1991 Southern California Global Educators Award, the 2008 Malibu Music Award, the 1989 and 1990 Leveraging Educational Assistance Partnership (LEAP) Awards with published grants, she is founder of non-profit NEWPEACE dedicated to cultivating a network of actively engaged global citizens working to build foundational relationships for humanity's peaceful coexistence. She resides in Malibu, California with her husband and eleven year old daughter.
